🏆 LeetCode

Profile summary

Dedicated B.Tech student specializing in Artificial Intelligence and Machine Learning (AIML) with strong proficiency in Python, NumPy, and Pandas. Passionate about NLP, data analysis, and building intelligent systems. Skilled in writing clean, efficient code with a growing understanding of software development practices. Seeking to apply technical skills in real-world projects and contribute to impactful solutions.

Education

2023–2027

- **Bachelor of Technology (AIML)**

Chandigarh Group of Colleges, Jhanjeri

CGPA: 7.5

- **Senior Secondary School Education**

Tulsi Public School, Ambala, Haryana

Percentage: 93%

- **Secondary School Education**

Tulsi Public School, Ambala, Haryana

Percentage: 90%

2021

2019

Projects

Fake News Detector (Machine Learning) [🔗](#)

- Developed a Python-based model to classify news articles as real or fake using NLP techniques.
- Implemented text pre-processing and utilized machine learning algorithms to improve detection accuracy.
- Tech Stack: Python, NLP, Machine Learning

Air Quality Analysis (Data Science) [🔗](#)

- Performed Exploratory Data Analysis (EDA) on environmental datasets using Pandas and NumPy
- Created visualizations to identify pollution patterns and trends.
- Tech Stack: Python, Pandas, NumPy

Calculator Using Python [🔗](#)

- Developed a menu-driven calculator application using Python functions to perform basic arithmetic operations
- Implemented user input handling and modular programming for addition, subtraction, multiplication, and division.
- Added basic error handling to manage invalid inputs and division by zero.

Salesforce CRM Exploration (Learning Project)

- Explored basic concepts of Salesforce CRM including objects, records, and workflows
- Understood cloud-based application architecture and data management concepts
- Gained introductory exposure to enterprise application platforms

Skills

- **Technical Skills:**

Programming Languages: Python, SQL, C++

Library & Tools: Pandas, NumPy

Platforms: GitHub, VSCode, Jupyter Notebook

Enterprise Platform: Salesforce CRM

- **Soft Skills:** Problem Solving, Analytical Thinking, Critical Thinking, Decision Making
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning

Achievements / Participation

- Maintained high academic standing with a 90% in 10th grade and 93% in 12th grade.
- Participated in multiple coding contests across platforms such as LeetCode, GFG [↗](#), codeChef [↗](#), hackerrank [↗](#) along with several local competitive events.
- Actively involved in participating in technical workshops, training sessions, and knowledge driven events as part of TAC leadership.
- Participate in Code Catana 2.0, a coding competition organized by college in collaboration with GeeksforGeeks

Certifications

- **Generative AI Foundation** - AWS academy [↗](#)
- **Mobile App Development** - Nasscom [↗](#)
- **Information Technology Fundamentals** - Ibm [↗](#)
- **Artificial Intelligence** - Codtech [↗](#)
